

# ZwickRoell Science Award 2019

Did you publish outstanding scientific findings related to materials or component testing recently? The ZwickRoell Science Award recognizes authors of scientific papers who report about the most innovative uses of materials testing machines. The submission deadline is 2020, 31<sup>st</sup> of January.

## Prizes

- First place: Paul Roell Medal and €5,000
- Second place: €2,000
- Third place: €1,000

We look forward to receiving your publications.

## ZwickRoell GmbH & Co. KG

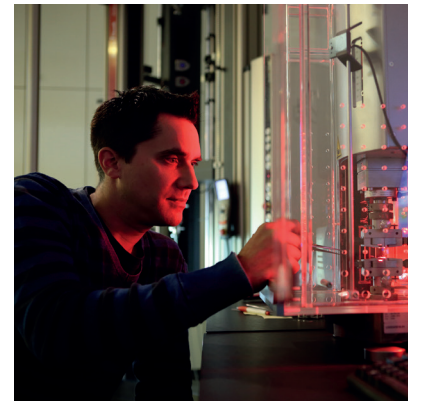

August-Nagel-Str. 11, 89079 Ulm, Germany

Email: [scienceaward@zwickroell.com](mailto:scienceaward@zwickroell.com)

The ZwickRoell Science award proudly looks back on many outstanding laureates, more than 500 submissions from 310 universities of more than 50 countries.

Papers have been submitted in the field of

- physics, materials science and engineering
- chemistry
- life sciences (medical and biology)
- civil engineering
- construction materials

## FAQ

### Who can participate?

Any author of a scientific paper (no matter if she/he is still at the university or research institute).

### What scientific works can be submitted?

You can participate with nearly every work, e.g. research or conference articles, posters and scientific papers (published or in preparation). You are allowed to submit more than one work.

### What kind of document should I send if I want to participate?

The paper (max. 15 pages), conference article or poster, a short CV and if available pictures and/or videos.

### What kind of document should I send if my work is a master thesis?

As our panel of judges is not able to read a full thesis, a paper is always preferred. If the author is able to make a summary in English of not more than 10 pages summarizing the “materials testing” part of the thesis it will be accepted too.

### Can I only participate when a ZwickRoell testing machines was used?

No, every brand of materials testing machines can be used in the scientific work.

### How old can the paper be?

If the content of your work is still of actual interest, the publication may date back to 2014.

### How will the winners be determined?

A panel of judges (ZwickRoell experts committee and 3 internationally acknowledged professors) will nominate the winners.
