

Thomas Klemm, ZwickRoell GmbH & Co. KG

Thomas Klemm studied machine building with a focus on materials and surface engineering in Furtwangen, and later engineering management in Esslingen.

He joined ZwickRoell in 1995, where after completing his final thesis, he started his career in the field of sales and marketing.

After leading various areas within the company, including Product Management for Hardware and Software Products, Service Engineer, Head of Software Adaptations and later Technical Director of the Service Department, Mr. Klemm took on the position of Sales Manager of the newly founded After Sales division in 2012.

Since 2018, he has additionally served as Co-Managing Director of the ZwickRoell Mexico subsidiary.

Following internal restructuring in 2021, he took on responsibility for modernization projects of static and dynamic or servohydraulic testing machines, pre-owned machines and retrofit projects for these machines, including the software business (updates and upgrades).
