

Dr. Eduard SCHENUIT

Dr. Schenuit served as Industry Manager Metal for ZwickRoell from October 2005 to February 2022; since March 2022 as Senior Consultant for QUAISO GmbH in Marl. He began his industrial career in 1990 as Product Manager for hardness testers at Krautkrämer, an EMERSON company headquartered in St. Louis (US), after working as a senior research associate at the II. Institute of Physics at the University of Hamburg.

Previously, he studied physics, physical chemistry, and mathematics at the University of Bonn (graduating with a Dipl.-Phys. (M.Sc.) degree) and received his Dr. rer. nat. (Ph.D.) degree in Experimental Physics from the University of Hamburg.

Dr. Schenuit is Chairman of the Hardness Testing Technical Committee in the VDI/VDE – GMA a German Association for Measurement and Automation Technology and a member of several national and international standardization committees for mechanical-technological materials testing of metals. He continues to be authorized by ZwickRoell for his work on these committees.
